
Metropolitan '14

SOFAS

Jeffrey Bennett

Description

After the namesake armchair with its slender profile and expertly tailored design that was presented in 2014, the project Metropolitan '14 by Jeffrey Bennett is extended with a cosy modern sofa that always features the continuous line presented by both seat and armrest. But the innovative touch is the base with four spokes. Already used as support for the armchair, here it is doubled to enhance the sofa with an aerodynamic flare that refreshingly revisits the look of even the most conventional spaces.

Technical drawings

B&B Italia reserves the right to make technological and aesthetic improvements to its models, including changes to the sizes and materials, without notice. The technical drawings do not define the details of the product. The measurements shown are indicative and may undergo changes. In particular, the dimensions relevant to the padded parts are subject to usage tolerances over time caused by the normal adjustment of the padding.
