
Butterfly

SMALL TABLES

Patricia Urquiola

Description

The system includes a family of complements, seamlessly integrated with the seats, making it possible to design many compositions suitable for different space customization requirements. The strong material component of Butterfly's cover and the softness of its shapes are an invitation to comfort, which, together with the modularity of the system, make it ideal for transversal projects, from hotels to marine applications. The Butterfly complements have an outline that perfectly follows the lines of the sofa, harmoniously flanking the seat at the top. The family consists of round, square, and rectangular low tables and a small table featuring a large weave pattern, made of tortora coloured twisted polyethylene fibres that wraps around the grey painted aluminium frame. Two finishes are available for the surfaces of the complements: white Carrara marble "venatino statuarietto" or thermo-treated ash wooden slats.

Technical information

Frame:

grey painted aluminium with polyester powder

Interlacing:

tortora polyethylene

Top:

thermo-treated ash slats or Carrara white marble "venatino statuarietto" (natural finish)

Ferrules:

thermoplastic material

Cover cloth:

polyester on synthetic support

Technical drawings

B&B Italia reserves the right to make technological and aesthetic improvements to its models, including changes to the sizes and materials, without notice. The technical drawings do not define the details of the product. The measurements shown are indicative and may undergo changes. In particular, the dimensions relevant to the padded parts are subject to usage tolerances over time caused by the normal adjustment of the padding.
