
Ray

SOFAS

Antonio Citterio

Description

Aesthetical and functional, Ray is a modular system that starts with linear elements, chaise longues and terminal elements, which can be used to form all sorts of configurations – even corner and peninsula models. Its strong points are linearity and simplicity, enriched with tailoring elements such as the blanket stitch in the same colour or a contrasting hue, that enhances the removable covers. A main feature is the die-cast U-shaped foot that, along with the seat cushion height, contributes to creating an image of Ray as a particularly elegant piece with balanced forms.

Technical information

Internal frame:

tubular steel and steel profiles

Internal frame upholstery:

Bayfit® (Bayer®) flexible cold shaped polyurethane foam, polyester fibre cover

Internal frame upholstery (RY183P):

shaped polyurethane of different density, polyester fibre cover

Seat cushions upholstery:

shaped polyurethane of different density, sterilized down, polyester and cotton fibre cover

Back cushions upholstery (RYG235N-RYLG275N):

shaped polyurethane, polyester fibre, polyester and cotton fibre cover

Back cushion (RY48C-RY72C-RY72CP):

upholstery : polyester fibre, typology : box style, stitchings : blanket stitch

Feet:

bronzed nickel painted or painted black chrome die-cast aluminium

Ferrules:

thermoplastic material

Cover:

fabric or leather (blanket stitch)
